

75th Anniversary

Natural Gas Tune-up Event

To Benefit Magee Music Society

Dear Neighbour,

Extend the life of your gas appliances and increase efficiency; all while supporting music education within our community. Cambie Plumbing & Heating Ltd has more than 75 years of experience maintaining boilers, furnaces and fireplaces and is partnering with The Magee Music Society.

Cambie Plumbing & Heating Ltd will donate at least 50% of the purchase price before tax to the Magee Music Society. We believe in being a contributing member of our community and giving back where we live and work. Ensure the gas appliances in your home are professionally maintained by a licensed, bonded and insured gas contractor. There are currently rebates available through Fortis® on each appliance we service. <https://www.fortisbc.com/rebates/home/appliance-maintenance-program>

Use the QR code to book online and support our student musicians!

This is a year round event; but spots are limited.
